WELCOME TO FINDLAY PRIDE 2023

Love Keeps Us Together

Greetings and welcome to Findlay Pride 2023! With so many options to celebrate Pride this year, we hope you enjoy the celebration to the fullest. Findlay Pride started in 2003, with a small group of passionate individuals who were looking to create a space to gather and celebrate our community. As we look ahead, this space will be just as crucial, given the legislative attacks and the rise of anti-LGBTQ+ sentiment. Showing up today helps to let people know we will not be silent, especially in these moments. We appreciate your presence, your support, and your allyship.

My first Findlay Pride was in 2019. A truly incredible experience as a life-long resident of Hancock County. Riverside Park was radiating with acceptance, love and authenticity of self. On that day, that moment in time, I did not worry about judgment or discrimination but that of acceptance and love. Pride means love, acceptance, education and celebration. Free to be who you want to be. Pride is being treated with respect and kindness, no matter of gender identity, sexual orientation or ethnicity. Findlay Pride has evolved into a week long days of events and are a grand expression of the many facets of our local gay, lesbian, bisexual and transgender community in Northwest Ohio. All events serve as a great way to educate the community about who we are. This is the time for our community to work together as a group to honor, learn, and educate from the past while reaffirming our goals for the future.

“LGBT people are some of the bravest and most potent change agents and leaders I have encountered, and the most forceful defenders of the vulnerable and voiceless, because they know what it’s like to be there.”

-Ronan Farrow

Together we can fight harmful legislation, together we can continue to create a community where everyone belongs!

PROTECTING OUR TRANS COMMUNITY

BY MIRANDA ALLYSEN & AYAKA KOGA

As we celebrate pride, our community, our love, and our well fought for rights, it's easy to forget how we got here, and that we still need to fight for our rights. Pride started as a protest just over 50 years ago with the Stonewall Riots. We have come a long way since then, but we still have quite a ways left to go. The trans community is currently under unprecedented political and social attacks. Our need to come together as a community has never been more important than right now.

According to the Human Rights Campaign, in 2023 alone:

"Over 540 anti-LGBTQ+ bills have been introduced in state legislatures." "Over 220 bills specifically target transgender and non-binary people." "45 anti-LGBTQ+ laws have been enacted this year, including:

13 laws banning gender-affirming care for transgender youth, 3 laws requiring or allowing misgendering of transgender students, 2 laws targeting drag performances, 3 laws creating a license to discriminate, and 2 laws censoring school curriculum and books."

Since last year the legislation targeting LGBTQ+ rights has more than doubled. In Ohio, the "Save Women's Sports Act" which would ban transgender girls from playing female sports was reintroduced. The "Saving Adolescents from Experimentation Act" was also reintroduced which would prohibit healthcare professionals from providing gender-affirming treatment. The "Enact Ohio Higher Education Enhancement Act" was also introduced this year. This act would affect institutions of higher education's diversity, equity, and inclusion policies and programs; policies related to intellectual diversity and controversial beliefs; it would prohibit training on concepts related to being advantaged or disadvantaged based on race and sex, and so much more. This political theater is unjust discrimination against the LGBTQ+ community and as a whole, we deserve better. Many of us in the LGBTQ+ community constantly fight, protest, and testify on behalf of transgender and non-binary youth, who are the main targets of anti-LGBTQ+ legislation.

As Harvey Milk said, "Rights are won only by those who make their voices heard." If you are unable to

protest, testify and fight for trans rights, there are other ways to help! Groups such as Black Queer & Intersectional Collective (BQIC), TransOhio, Equality Ohio, Trans Allies of Ohio, Honesty For Ohio Education, T-Talks, and LGBTQ+ Spectrum Of Findlay, just to name a few, are amazing organizations helping our local community by creating safe places, providing platforms to share stories and life experiences, organizing events, and so much more! In addition, educating yourself and in mindful, safe ways educating others would be crucial to helping gain our rights. Using reliable resources like the Transgender Training Institute to educate yourself and others can help mitigate misinformation about our community that can be harmful and counterproductive.

Of course, we all need to contact our representatives in Columbus and locally to let them know that we stand against this hateful and discriminatory legislation. You can find your representatives in Ohio by going to this website and typing in your address. legislature.ohio.gov Our voices and visibility must rise above the hateful rhetoric that is becoming commonplace locally, statewide, and at a national level. The fight for just and equitable rights will always be to the benefit of our entire society, not just those at the forefront of the fight. Working in solidarity gives a voice to those who otherwise may not have a

voice - it gives visibility to those who feel invisible. ***“When you put love out in the world it travels, and it can touch people and reach people in ways that we never even expected,”*** said Laverne Cox.

Who knows how many people have leaps of joy by just seeing someone be themselves? It's so scary sometimes to be yourself, especially in places of adversity and it's hard work, but so extraordinarily important to educate, be seen, be heard, exist, and fight for our rights. Sometimes it seems impossibly hard to be who you are and be safe which is why community is so important. If we all stick together, speak up for one another, and support each other, it becomes easier and safer. We don't have to have the weight of the world on just our shoulders, we can all share the weight. Audre Lorde said it perfectly, “My silences had not protected me. Your silence will not protect you.” If we all come together, it becomes easier to speak and be seen. Together we can protect each other.

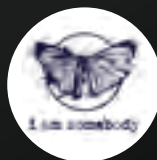

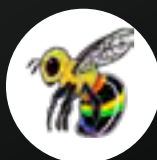

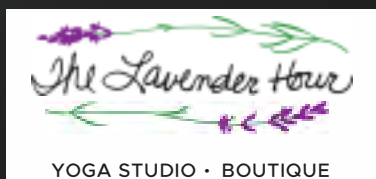

Pride is an event for everyone to feel safe and welcome in the community. This pride season remember to be powerful, seen, heard, grateful for the work of those before us, and mindful that the fight is not over yet. Let's help everyone feel safe and welcome every day in every place. Ohio is for everyone!

FINDLAY LGBTQ YOUTH GROUP

Spectrum's Youth LGBTQ Group aims to support teens seeking friendship, identity exploration, and a safe space to just be themselves! Together with a licensed group facilitator and community volunteers, group members pick topics and activities for the twice monthly meeting. We cover everything from TikTok trends to bullying to worst food combos! Held at the Spectrum office, this group meets every 1st and 3rd Wednesday of the month. The youth group facilitator is a licensed therapist with nearly ten years experience working with LGBTQ youth and their parents.

A monthly parent group is held simultaneously at the Spectrum office on every 1st Wednesday, where parents support each other and share resources. A community parent and LGBTQ youth duo support both parents and teens by sharing their own successes and challenges from personal experience. Now more than ever, these groups provide community and safety through the many challenges that LGBTQ youth and their families navigate every day.

VOLUNTEERING WITH SPECTRUM OF FINDLAY

I've had the honor of giving a little bit of my time as a volunteer for LGBTQ+ Spectrum of Findlay.

Maybe deep down inside, I'm a people pleaser. I wouldn't say that's bad thing when it comes to volunteering. I enjoy helping people. I love the sense of community. I feel peace watching someone's shoulders relax when they realize there's one less item on their To-Do list. Easing the load someone else is carrying is kind of my jam. Contributing my time to help others creates a contagious feeling of warm energy spreading around like the free mom hug that we all need.

My entire family has been impacted by LGBTQ+ Spectrum of Findlay. My husband, Jon, and I have the honor of advising Findlay High School's GSA (Gender Sexuality Alliance) and Spectrum provides us with valuable resources for students. My kids look forward to Pride in the Park each year for the activities and Drag Queen performances (and so much swag). My oldest read for the Jazz and Friends' Community Reading with Vy, creating a core memory. My parents and in-laws have become stronger allies. And don't even get me started with the number of friends I've made throughout the years. The quantity and quality of memories and benefits with LGBTQ+ Spectrum of Findlay are immeasurable.

Why do I volunteer for LGBTQ+ Spectrum of Findlay? It's about love. It's about fun. It's about visibility. It's about giving back in our local community. It's about showing up and holding space so our youth know there is love and hope and promise.
